

Dear Friend,

One day recently, I was watching a news broadcast of a protest by many women who were demanding for abortion rights to be established as law in their state. There were a few obvious radicals who had dyed their hair red, or purple, wore many various tattoos, and had all sorts of piercings. But most of the women looked like the proverbial "girl next door." They looked like typical American mothers you would see in most suburban neighborhoods. All races were represented; white, black, Hispanic, Asian, etc.

They were extremely focused on their mission. They held up all sorts of posters saying things like, "My body. My decision. Abortion Is A Woman's Right. No Uterus, No Opinion. Abortion Is Health Care." These women had a fierce countenance on their face, like women going into war to defend their "rights."

As I was watching this mass of protesting women, I heard the Holy Spirit say, *"Hardly a one of those women would purposely harm a small child. They truly believe a fetus is not a human child. They are being destroyed for a lack of knowledge."*

As I looked at the faces of these women, I knew it was true. In fact, these same women who were demanding their "right" to eliminate the life of a fetus would turn their wrath upon me if they saw me harming a small child in any way. Is a fetus a human child or is it just a mass of living cells?

Today we have scientific knowledge of DNA. That knowledge has led to many a conviction in courts of criminal law because the DNA of each individual is different from every other individual. (The only exception being identical twins.) Knowing that each human has its own unique DNA, the question that must be answered is, WHEN was that DNA created?

Here is an excerpt from an www.medlineplus.gov article titled Fetal Development:

- During intercourse, sperm enters the vagina after the man ejaculates. The strongest sperm will travel through the cervix (the opening of the womb, or uterus), and into the fallopian tubes.
- A single sperm and the mother's egg cell meet in the fallopian tube. When the single sperm enters the egg, conception occurs. The combined sperm and egg is called a zygote.
- **The zygote contains all of the genetic information (DNA) needed to become a baby.** Half the DNA comes from the mother's egg and half from the father's sperm.

Let us emphasize ... **THE ZYGOTE CONTAINS ALL OF THE GENETIC INFORMATION (DNA) NEEDED TO BECOME A BABY!**

Said another way, the unique DNA of the human is produced ... AT CONCEPTION! No other human has ever had, nor will any human ever have, that same DNA. Let us say that again. Nobody in history every had that DNA. Nobody in the future will ever have that DNA. If you abort the zygote, you kill the human!

If the mother of the prophet Isaiah had aborted the zygote, she would not have just been aborting a blob of flesh. She would have been killing Isaiah. It is the same with the prophet Jeremiah, whom God also called from his mother's womb. In the New Testament, the apostle Paul said God called him from His mother's womb. If his mother had aborted the zygote, she would have been killing the human who became the apostle, Paul.

And horror of horrors, what if Mary had aborted the zygote? She would have been killing the Messiah Himself, before He could have paid the price for our sins. God forbid!

At our core, we all know this is true just by common sense. Dear friend, if your mother had aborted the zygote when she was pregnant with you, she would have been killing ... you! But this common knowledge has been brainwashed out of the minds of many women today. They have been brainwashed by our educational system to believe that embryos in the womb are not humans.

This is very similar to the brainwashing the Nazi's did in Germany to turn a highly educated, church-going population against the Jews. For years the people were saturated with propaganda that declared Jews were not human. They were simply vermin, like rats, that needed to be hunted down and exterminated. In movies, books, and leaflets the lie was communicated constantly.

"Make the lie big, make it simple, keep saying it, and eventually they will believe it." – Joseph Goebbels (Hitler's chief propagandist).

We are in a season of gross darkness. The good news is the light of the true gospel will shine very bright. We are in the beginning of the greatest revival the world has ever seen. Millions will be born again, and we praise God for that. But those new converts must then be discipled. Let the teachers who do the discipling not fear the wrath of the world governments. Let us speak the truth in love no matter the lies spewing from the world's propaganda outlets.

One last thought ... if you have had an abortion, there is forgiveness through Jesus Christ our Lord. Remember that king David was an adulterer and a murderer, yet he repented, and God has accepted him into heaven. He will do the same for you. There is no sin so heinous that the blood of Jesus cannot wash it away.

Your fellow servant for Christ,

GARY
